

GARDEN COMPOST GUIDE

Brown Materials

carbon

Cardboard Brown Leaves
Mulch/Straw Newspapers
Brown Paper Bags Dried Grass Clippings
Pela Phone Cases

Green Materials

nitrogen

Fruit & Veggie Scraps Egg Shells
Spent Coffee Grounds Tea Bag and Tea Leaves
Fresh Grass Clippings Cow Manure
Cotton Fabric

Aim for a 30:1 carbon:nitrogen ratio in your compost.

Charcoal	Fats & Oils	Meat/Seafood	Dairy
Diseased Plants	Weeds with seed heads	Onions	Plastic lined paper products
Horse Manure	Large amount of citrus	Pet Waste	Manure from omni/carnivores

If you do compost citrus or onions, throw in crushed egg shells to help balance the pH.
